

Community Offshore Wind Windworks Webinar

February 5, 2024

Meet

COMMUNITY
offshore wind
local clean energy for all

February 2022: Community Offshore Wind acquired Lease Area OCS-A 0539, the largest lease area in the New York Bight.

October 2023: Awarded a provisional offtake contract to develop 1.3 GW of new offshore wind capacity – enough to power more than 500,000 New York homes.

Our joint venture brings together two global leaders in renewable energy and transmission:

RWE

- #2 offshore wind company globally
- 19 offshore wind projects successfully completed globally
- 6 GW of offshore wind project in development in the US
- 8 GW of onshore wind, solar, and storage in the US
- New zero goal by 2040

nationalgrid ventures

- Serving 20 million people throughout NY and MA
- More than 5,000 employees in New York
- Growing portfolio of onshore wind, solar, battery storage and transmission modernization projects in the US
- National Grid and its legacy companies have operated in NY for over 125 years

Community Offshore Wind | Our Brooklyn Project

Delivering for New York

1.3 GW of Renewable Energy

\$3.3 Billion in Economic Benefits

Powering 500,000+ New York Homes

800+ New, Good-Paying Jobs

Connecting to the Con Edison Clean Energy Hub in Brooklyn

\$500M+ Spending Commitment for Disadvantaged Communities

\$10M Investment in Childcare for Offshore Wind Workers and Trainees

5% Emissions Reduction for New York State Power Sector

Distance to New York: 64 miles

\$41M for Workforce Development

Community Offshore Wind | Our NY4 Proposal

Community Offshore Wind NY4 Proposal

 <p>1.3 GW of Renewable Energy</p>	 <p>Nearly \$50M for Workforce & Community Programs</p>	 <p>\$38M Investment in Environmental Research & Mitigation Funding</p>
 <p>Powering 500,000+ New York Homes</p>	 <p>\$15M for Supportive Services for OSW Workforce</p>	 <p>Focus on Delivering Benefits to Disadvantaged Communities</p>
 <p>Equal to Removing 11 Million Cars From the Road</p>	 <p>\$20M Powering Up Fund for OSW Workforce Training and Preparation</p>	 <p>\$4M Investment in Education Programs</p>
 <p>\$1 Billion in Economic Benefits</p>	 <p>\$4M Investment in Youth Employment Programs</p>	 <p>Up to \$10M Investment in Supply Chain Development</p>

Empowering Communities

For Community Offshore Wind, community comes first.

Our four key engagement pillars will maximize benefits for New Yorkers.

Design to minimize burdens

- 1 Inclusive project development and decision making

Accelerate clean energy economic opportunities

- 2 \$130M investments in local stakeholders

New York Stakeholders

- 3 Wide array of stakeholder activities and marketing efforts

Enable and empower communities

- 4 Committed to tracking progress

Community Offshore Wind | Committed to our Communities

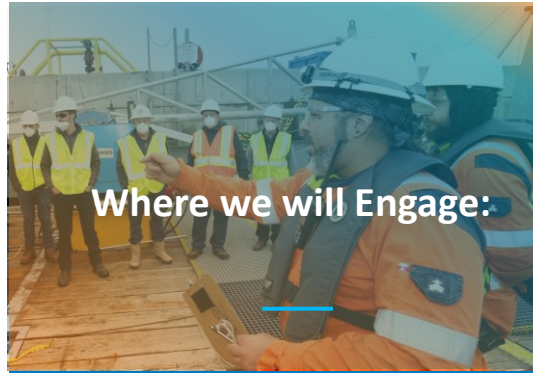

The clean energy transition must be equitable and accessible for every worker. Working hand-in-hand with communities, we will develop our project responsibly and transparently.

How we Have Engaged:

- Marine education field trips for **400+ students**
- Donated **900 coats and 100 pairs of gloves** for families in need
- Donated **30,000+ meals** of locally-sourced seafood to food pantries statewide
- Collected **900lbs of garbage** at Earth Day cleanups

Where we will Engage:

- **\$10M** for reduced-cost childcare for all offshore wind trainees and workers in New York State
- **\$11M** for YMCA Swimming Program for Disadvantaged Communities
- **\$1.5M** for SUNY Orange to offer manufacturing skills training programs

We want to hear from you!
